

ASPIRE 3 2022 Course feedback

Logistics

How satisfied were you with the following?

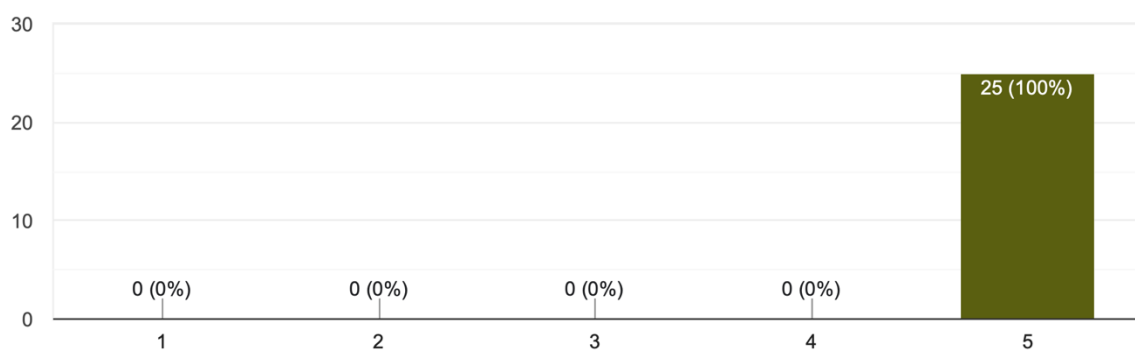

Feedback

Excellent course. Really enjoyed it
A little more notice for the course, but otherwise great
Excellent organisation
Well organised course with good content.
Very short notice for the course
I don't know if there is a way of finding all the ST3 trainees centrally, as a few of us didn't get identified by our TPDs and so didn't get invited. Otherwise all excellent

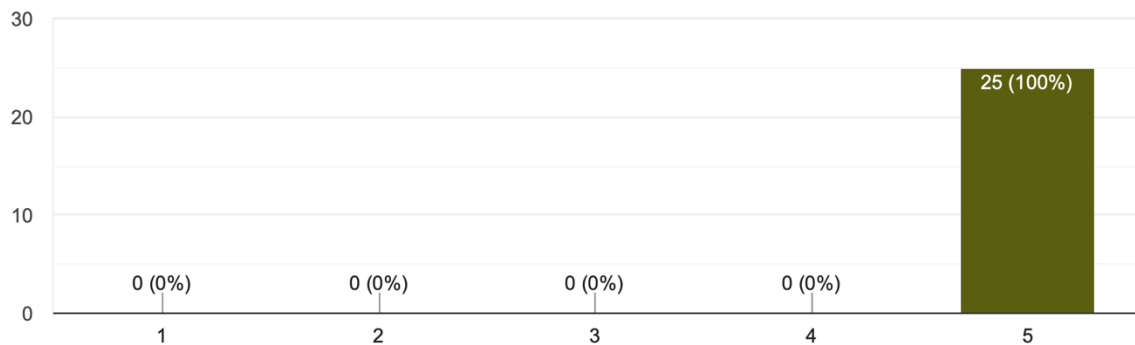

How relevant and helpful do you think ASPIRE 3 was for your new role?

Excellent session

Fantastic course, nothing I would change about it. Thank you

I think the simulation sessions and practical sessions could be shortened just a little!

Thanks

Excellent induction and a great course

Great faculty throughout

Ultrasound teaching on vein cannulation very useful

Sessions should be 2 hours not 3

All excellent. Great group sizes and very engaging trainers.

Excellent talks and simulation sessions. Very good introduction and exposure to faculty.

Looking forward to the other aspire courses - certainly leading the way in a whole cohort annual course!!

Thanks Tim and Everyone...Very relevant and practical...Keith is a legend!!!...Lovely and respectful and patient teachers...very engaging

I'm not quite sure there is anything else I would do to improve this. Very much needed and well timed course and we'll delivered. Session on DFI also very useful and relevant.

Remarkable support from faculty and organisation. Great coverage of topics that we want to know more about. Couldn't be more grateful for this course and thank you Mr Beckitt
