

19 July 2019

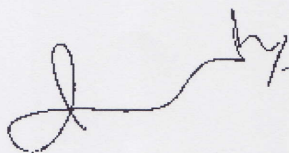

Ms Bridget August
Via email

Dear Bridget,

Thank you for your recent participation in the ultrasound component of the Vascular Trainee Skills Course held at the Waikato Clinical Skills Centre from Wednesday 17 July – Friday 19 July. The Skills Course is run every year for the Vascular Surgery Education and Training Program of the Royal Australasian College of Surgeons.

The course is run entirely by faculty who volunteer their time and I am very appreciative of your commitment and contribution to the course over the three days. You should know that the ultrasound component of the course has received excellent feedback from the trainees.

Yours sincerely,

Mr Thodur Vasudevan, FRACS
