Thank you and Coleen for a very good CPD event – you have both put a lot of work into this and this is very much appreciated – I definitely took away some learning and reaffirmation of what I am doing is correct.

Very many thanks again. ☺

Subject: CPD event copy

Hi All

Thank you for attending today's CPD event. We hope you've got some take-away learnings.
As you requested for a copy of the slides, we're sending it to you but we can't send a copy of the 'Review of Images' session due to patient confidentiality reasons.
We've also attached a copy of the whole article about prevalence of AAA rupture in men under surveillance in the NAAASP. It's a good article, please take time to read it.

Best wishes,
Shirley
