Hi Ann,

A certificate of attendance would be good as I can get CPD points for doing this.

Do I need to do anything else for the assessments on the blackboard (I know I and others had trouble answering some of the questions as there was only one answer given and some of the circles to click on didn't work)?

Thanks again for your help,

Laura Wingate

Hi Laura

the course isn't of a pass/fail type as there is no assessment for you. Having attended you are now free to train. We do not normally issue a certificate of attendance but I can create one for you if you wish? I will have a look at the pre-course learning scores and get back to you about that.

Kind regards

Ann

Dear Ann,

I attended the CST training last week at Salford University, I was wondering if we all passed? As my screening coordinator has been asking?

Also do we get a certificate for the course and can we go ahead and train?

Is there anything else we need to compete on the blackboard? As I know I was and others were having trouble with some of the pre-course learning tests?

Many thanks,

Laura
