Friday 28 April 2023

THANK YOU for joining us at the 45th Charing Cross Symposium!

Professor Roger Greenhalgh and the CX Executive Board would like to thank all those who attended this year's meeting. We hope it provided three days packed with invaluable innovation, education and evidence.

Headlined by **first-time presentations of the BASIL-2 trial**, along with several other highly anticipated Podium Firsts, CX 2023 brought together the global community for a programme spanning all vascular domains.

Looking ahead to next year, CX will move to the ExCeL centre, which will offer more space to host the plenary programme, as well as a larger exhibition and workshop space.

If you missed any of the sessions throughout this week, and would like to catch up, in-depth coverage of all three days is available now for registrants via cxvascular.com.
