In talks to have this applied for equivalence but nothing agreed as yet.

	Now available as pdf. Submissions to be made as word documents. Other: Requests to change requisite vein numbers to gain AVS to be discussed at the heads of service meeting, though in the first instance a network should be set up to establish which sites could take trainees requiring vein numbers. 300 DVT and 300 insufficiency and/or specify set number of positive DVT scans, but still retain minimum of 100 recurrents and maintain 3 years. How would this affect the standards? Numbers vs competency.

	- Steve from Capability Cloud has said they can add upload boxes for core modalities for £500. Agreed that references should be submitted alongside application and practical examiner would then just confirm the reference with the referee. NN to enquire as to whether a reference box could also be added within this cost, all to go live for ASM. ACTION	NN
