Hi Amy,

Not at all, you're very welcome.

I think it went largely ok, although I do think perhaps it could have been a little better- I think that's something that would come with practise, as this was my first proper lecture I've delivered in front of such a large group of people. In explaining a few principles I think I skipped a couple of things (for the sake of simplicity) so maybe a few of my points weren't very clear as I got a few blank looks a couple of times! But hopefully this is something I'll improve on over time if I gain experience doing this.

There were two students at the front who were very nice and asked intelligent questions and gave me some positive feedback, which was nice.

Overall, I enjoyed doing this and it was a pleasure.

Kind Regards

Mudasar

Subject: Thank you

Dear Mudasar,

Thank you so much for running this session for our year one PA students. How do you feel it went?

BW
