

# The Vascular Societies' Annual Scientific Meeting 2018

In conjunction with the Vascular Society of Great Britain and Ireland, the Society of Vascular Nurses, and the Society for Vascular Technology of Great Britain and Ireland.

**28th – 30th November 2018**  
Scottish Event Campus, Glasgow

## VASCULAR SOCIETY ANNUAL SCIENTIFIC MEETING PROGRAM

### KEY

Delegates are free to attend sessions in any of the tracks below. Sessions are colour coded to help identify those most likely to be of interest

VS / Surgical

SVN / Nursing

SVT / Technology

Company Symposia

Workshops

Social

Workshop sessions have limited availability and pre-registration/ booking is essential. To attend delegates must hold a day/ full conference ticket and for all workshops there is an additional fee. **Please note that programme is subject to change.**

*This programme has been reviewed by the Education Committee of the Vascular Society of Great Britain & Ireland and determined to be the equivalent of the following number of educational hours:*

*Wednesday: Up to 7 hours / Thursday: Up to 8 hours / Friday: Up to 4 hours. Please note that this is for Vascular Sessions only. We will supply you with an attendance certificate. It is your responsibility to add up the sessions attended and reflect this in your educational portfolio*

**Please note: pre-registration will be available in Hall 1 from 5-8pm on the day prior; Tuesday 27 November**

# WEDNESDAY 28 NOVEMBER

## 07:30 DELEGATE REGISTRATION WITH TEA, COFFEE AND EXHIBITION VIEWING

	LOMOND (Main Auditorium)	ALSH	BOISDALE	CARRON	DOCHART
08:00 - 09:15	<p><b>VENOUS SESSION</b> 08:00-12:00</p> <p><u>Chairs:</u> Ian Franklin, Manj Gohel</p> <p><b>08:00-09:15</b> <b>VENOUS Abstract Presentations</b> <i>Following the abstract submission process, selected abstracts in this category will be presented in a fast paced session each of 5 minutes plus 1 minute for questions</i></p> <p><i>The top scoring presentations will be selected for the BJS or Sol Cohen Prize Sessions on Thursday. The best presentation will receive the Venous Forum Prize at the Gala Dinner on Thursday evening at Glasgow Science Centre</i></p> <p><b>08:00 - 08:06</b> <b>3D tomographic ultrasound (tUS) for Arterio-Venous Fistula surveillance</b> Mr Steven Rogers</p> <p><b>08:07 - 08:13</b> <b>Duplex Ultrasound Features in Chronic Venous Disease – A Single Centre Experience</b> Mr Matthew Tan</p> <p><b>08:14 - 08:20</b> <b>Reduced 5 Year Serious Complication Rates from Embolo-Sclerotherapy of Lower Extremity High- and Low-Flow Vascular Malformations</b> Miss Ishapreet Kaur</p>	<p><b>CAROTID / PVD SESSION (1)</b> 08:00-12:00</p> <p><u>Chairs:</u> Louis Fligelstone, Robert Lonsdale</p> <p><b>08:00-12:00</b> <b>CAROTID/PVD Abstract Presentations</b> <i>Following the abstract submission process, selected abstracts in this category will be presented in a fast paced session each of 5 minutes plus 1 minute for questions</i></p> <p><i>The top scoring presentations will be selected for the BJS or Sol Cohen Prize Session on Thursday. The best presentation will receive the Carotid/PVD Forum Prize at the Gala Dinner on Thursday evening at Glasgow Science Centre</i></p> <p><b>08:00 - 08:06</b> <b>Restenosis after carotid endarterectomy: comparison of three surgical techniques and usage of intraoperative shunts</b> Dr Suk Cheng</p> <p><b>08:07 - 08:13</b> <b>The Development and Validation of a Prediction Model of 1-year Mortality after Incident Dysvascular Lower Extremity Amputation</b> MD Joseph Czerniecki</p>	<p><b>BOISDALE 1</b> <b>SARS SESSION</b> 08:00-12:00</p> <p><u>Chairs:</u> Frank Smith, Alun Davies <b>SARS Abstract Presentations</b> <i>Following the abstract submission process, selected abstracts in this category will be presented in a fast paced session each of 5 minutes plus 1 minute for questions</i></p> <p><i>The top scoring presentations will be selected for the BJS or Sol Cohen Prize Session on Thursday. The best presentation will receive the SARS Forum Prize at the Gala Dinner on Thursday evening at Glasgow Science Centre</i></p> <p><b>08:00 - 08:06</b> <b>Metabolic phenotyping in chronic venous ulceration - a tool for predicting healing?</b> Miss Sarah Onida</p> <p><b>08:07 - 08:13</b> <b>Systematic review and meta-analysis of 16,049 patients of using local vs general anaesthesia in elective endovascular repair of abdominal aortic aneurysm</b> Mr Amer Harky</p> <p><b>08:14 - 08:20</b> <b>Purine Nucleosides as Indicators of Cerebral Ischaemia in Local and General Anaesthetic Carotid Endarterectomy</b> Mr Owain Fisher</p>	<p><b>SVT PROGRAMME (1)</b> 09:50-10:00 <b>WELCOME</b> Sara Causley, President of SVT</p> <p><b>AVF FISTULA STUDY SESSION</b> 10:00-12:00 <i>This session will be aimed at those who are new to scanning arterio-venous fistulae (AVF), but may also be a useful refresher for people who only do a limited amount of AVF work. Following a talk about the clinical background of vascular access fistulae from Mr David Kingsmore (Vascular Access Surgeon), Matt Bartlett will present a session on the haemodynamics of AVF, and discuss some of the errors associated with Doppler flow volume measurements, and what we can do to minimise them. Ved Ramnani will then discuss scanning protocols and give a step by step guide to both pre AVF mapping and AVF surveillance scanning, discussing image optimisation and interpretation. The session will conclude with audience questions and a live scanning demonstration.</i></p> <p><i>There will be no additional charge to attend this study session, it is included in the Wednesday registration fee.</i></p> <p><u>Chairs:</u> Helen Dixon, Kamran Modaresi</p>	<p><b>AORTA/TRAUMA SESSION (1)</b> 08:00-12:00</p> <p><u>Chairs:</u> Jon Boyle, Syed Waqar Yusuf <b>AORTA/TRAUMA Abstract Presentations</b> <i>Following the abstract submission process, selected abstracts in this category will be presented in a fast paced session each of 5 minutes plus 1 minute for questions</i></p> <p><i>The top scoring presentations will be selected for the BJS or Sol Cohen Prize Session on Thursday. The best presentation will receive the Aorta/Trauma Forum Prize at the Gala Dinner on Thursday evening at Glasgow Science Centre</i></p> <p><b>08:00 - 08:06</b> <b>Endovascular Aneurysm Sealing for Intact, Infraarenal Abdominal Aortic Aneurysm – Results from the First 199 Cases at a Single Institution</b> Miss Kate Stenson</p> <p><b>08:07 - 08:13</b> <b>Does abdominal aortic aneurysm (AAA) surveillance help to reduce Aortic related mortality in 85 years old patients? Analysis of a tertiary centre surveillance cohort database</b> Mr Ahmed Elbasty</p> <p><b>08:14 - 08:20</b> <b>Emergency EVAR for complex abdominal aortic aneurysms</b> Mr Maciej Juszcak</p>

<p><b>08:21 - 08:27</b> Reduced 5 Year Serious Complications from Embolo-Sclerotherapy of Upper Extremity High- and Low-Flow Vascular Malformations Mr Nicholas Evans</p> <p><b>08:28 - 08:34</b> Thrombophilia is not an independent risk factor for patency loss or re-intervention in the treatment of post-thrombotic occlusion using dedicated nitinol venous stents Mr Nick Jackson</p> <p><b>08:34 - 08:40</b> Does lymphoscintigraphy correlate to Clinical presentation in lymphoedema? Mr Mohamed A M E Elzawahry</p> <p><b>08:41 - 08:47</b> Treatment of peripartum acute ilio-femoral deep vein thrombosis with nitinol venous stents: assessing risk of re-intervention and patency loss Dr Katalin Lestak</p> <p><b>08:48 - 08:54</b> Ultrasound surveillance following arteriovenous fistula formation: scanning to success? Mr Andrew Nickinson</p> <p><b>08:55 - 09:01</b> Analysis of benefit and risk for adjuvant use of AngioJet pharmacomechanical thrombectomy in treatment of iliofemoral deep vein thrombosis. Miss Anna Louise Pouncey</p>	<p><b>08:14 - 08:20</b> Risk factors for in-hospital mortality following major lower limb amputation: an analysis of 10,000 patients' data from the UK National Vascular Registry Mr Graeme K Ambler</p> <p><b>08:21 - 08:27</b> Vein versus prosthetic graft for femoro-popliteal bypass above the knee: A systematic review and meta-analysis of randomised controlled trials Mr Martin Sharrock</p> <p><b>08:28 - 08:34</b> An evaluation of hub and spoke model of symptomatic carotid surgery service. Dr Ahmed Shalan</p> <p><b>08:34 - 08:40</b> Systematic review of pre-operative carotid duplex vs CT carotid angiography for Carotid Endarterectomy patients, Does the evidence support using CTA and/or Carotid duplex to assess the degree of stenosis? Miss Tonia Forjoe</p> <p><b>08:41 - 08:47</b> Long-term outcomes of Surgeon Performed Stent-Grafting in Severe TASC C &amp; D Aorto-iliac Occlusive Disease Mr Matthew Popplewell</p> <p><b>08:48 - 08:54</b> Artery ligation for infected femoral pseudoaneurysms does carry a high risk of major amputation Mr Julien Al Shakarchi</p>	<p><b>08:21 - 08:27</b> Adjuvant Benefit of Neuromuscular Electrical Stimulation to Supervised Exercise in the management of patients with Intermittent Claudication – a randomised controlled trial Mr Tristan Lane</p> <p><b>08:28 - 08:34</b> A systematic review and meta-analysis on the presentation and surgical management of patients with carotid body tumours. Mrs Vaux Robertson</p> <p><b>08:34 - 08:40</b> A novel algorithm integrating plasma proteomics, flow mediated dilatation of brachial artery and AAA diameter for the prediction of growth of abdominal aortic aneurysms in humans Dr Regent Lee</p> <p><b>08:41 - 08:47</b> 18F-Fluorodeoxyglucose and 18F-Fluoride Positron Emission Tomography for Identification of Restenosis in Symptomatic Peripheral Arterial Disease : A Prospective Clinical Study Mr Mohammed Chowdhury</p> <p><b>08:48 - 08:54</b> 3D tomographic ultrasound (tUS) to measure Carotid Plaque Volume Mr Steven Rogers</p> <p><b>08:55 - 09:01</b> Systematic review and meta-analysis of 385,406 patients of local vs general anaesthesia in carotid endarterectomy – update since GALA trial Mr Amer Harky</p>	<p><b>10:00-10:20</b> <b>The Clinical Background and Vascular Access</b> Mr David Kingsmore, Vascular Access Surgeon, Queen Elizabeth University Hospital Glasgow</p> <p><b>10:20-11:00</b> <b>Haemodynamics and Potential Problems</b> Matthew Bartlett, Clinical Vascular Scientist, Royal Free London, NHS Foundation Trust</p>	<p><b>08:21 - 08:27</b> Carbon dioxide guided endovascular aneurysm repair: Retrospective review and mid-term outcomes Mr Tamer Ghatwary Tantawy</p> <p><b>08:28 - 08:34</b> Migration and aneurysm rupture following endovascular aneurysm sealing with the Nellix device Miss Tasneem Pope</p> <p><b>08:34 - 08:40</b> Elective Endovascular Repair of Abdominal Aortic Aneurysms Is A low risk and Durable Modality for Repair of Asymptomatic Abdominal Aortic Aneurysms Dr Claire Dawkins</p> <p><b>08:41 - 08:47</b> Aneurysm Morphology is a More Significant Predictor of Survival than Hardman's Index in Patients with Ruptured or Acutely Symptomatic Abdominal Aortic Aneurysms Mr Andrew Hollingsworth</p> <p><b>08:48 - 08:54</b> Aneurysm growth following endovascular aneurysm sealing of abdominal aortic aneurysms and its associations with stent movement Miss Asma Yafawi</p> <p><b>08:55 - 09:01</b> The Impact of Fenestrated Endovascular Aortic Aneurysm Repair on Renal Function Mr Sandip Nandhra</p> <p><b>09:02 - 09:08</b> The costs of elective abdominal aortic aneurysm (AAA) repair: a comparative nationwide study in England from 2008 to 2015 Mr. Ahmed Aber</p>
---	---	---	--	--

	<p><b>09:02 - 09:08</b>  <b>Duplex Ultrasound Detection of Deep Vein Thrombosis after Cardiac Catheter Ablation Suggests Underestimated Prothrombotic Effect of Endovenous Interventions</b>  Dr Charo Bruce</p>	<p><b>08:55 - 09:01</b>  <b>Does severity of stenosis influence risk of stroke distal to asymptomatic carotid stenosis? - a population-based cohort study and meta-analysis</b>  Mr Dominic Howard</p>	<p><b>09:02 - 09:08</b>  <b>Pseudocontinuous arterial spin labelling on magnetic resonance imaging in patients with carotid artery stenosis</b>  Dr Suk Cheng</p>		<p><b>09:09 - 09:15</b>  <b>EVAR: Should it be dumped?</b>  Dr Mohamed Elkawafi</p>
09:15	<p><b>VENOUS SESSIONS (1)</b>  <b>09:15-09:30</b>  <b>Penile haemodynamics and cyanoacrylate glue for erectile dysfunction</b>  <b>Sriram Narayanan</b>  Senior Consultant Vascular Surgeon, Harley Street Heart and Vascular Centre, Singapore  Asst Prof of Surgery, National University Singapore</p> <p><b>09:30-09:45</b>  <b>The evidence for using compression after venous interventions</b>  Professor Bruce Campbell, Consultant Vascular Surgeon Royal Devon and Exeter Hospital</p> <p><b>09:45-10:00</b>  <b>What has changed in the management of KTS? Jocelyn Brookes, Consultant Endovascular Radiologist, UCLH NHS Foundation Trust and The London Clinic</b></p> <p><b>10:00-10:15</b>  <b>What further evidence do we need before NICE guideline (CG) 168 actually changes practice within the UK, Professor Andrew Bradbury, Professor of Vascular Surgery, University of Birmingham</b></p> <p><b>10:15-10:30</b>  <b>New evidence from the CLASS trial</b>  Graham Scotland, Reader of Health Economics, Assessment of Technologies Research Theme Lead,</p>	<p><b>09:02 - 09:08</b>  <b>An Audit of Vascular Management in the Year Prior to Major Lower Limb Amputation</b>  Dr Maryum Farooq</p> <p><b>09:09 - 09:15</b>  <b>Patient Co-operative General Anaesthesia For Carotid Endarterectomy - A Third Option.</b>  Mr Yao Pey Yong</p> <p><b>09:16 - 09:22</b>  <b>Percutaneous transluminal angioplasty for lower limb arterial disease: is primary stent insertion the way forward?</b>  Dr Sambavi Sritharan</p> <p><b>09:23 - 09:29</b>  <b>Tissue Oxygen Saturation in healthy individuals with varying degrees of occlusion to their peripheral circulation – helping to understand the risk factors involved in Pressure Ulcer formation?</b>  Miss Emma Scott</p> <p><b>09:30 - 09:36</b>  <b>The Fate of the Claudicant; 25 years after Dormandy</b>  Miss Katherine Hurst</p> <p><b>09:37 - 09:43</b>  <b>Are we optimally treating lipids in patients with peripheral arterial disease? A VERN national audit.</b>  Dr Athanasios Saratzis</p>	<p><b>09:09 - 09:15</b>  <b>NICE AAA draft guidelines are flawed: a real world fiscal analysis.</b>  Dr Scott Stevens</p> <p><b>09:16 - 09:22</b>  <b>A randomised control trial evaluating the effect of pre-operative forearm exercise on cephalic vein diameter and vascular access outcome</b>  Miss Louise Silva</p> <p><b>09:23 - 09:29</b>  <b>Investigating whether a fundamental difference in aortic wall structure causes a predisposition of aneurysmal degradation.</b>  Miss Lakmini Liyanage</p> <p><b>09:30 - 09:36</b>  <b>Endovenous laser ablation versus mechanochemical ablation in the management of superficial venous insufficiency (LAMA trial)</b>  Dr Abduraheem Mohamed</p> <p><b>09:37 - 09:43</b>  <b>Single Cell Characterisation of Abdominal Aortic Aneurysms by Mass Cytometry (CYTOF) Reveals a Chronic Inflammatory Cell Infiltrate Predominated by T and B Cells</b>  Dr Ismail Cassimjee</p> <p><b>09:44 - 09:50</b>  <b>Untargeted metabolomic profiling reveals metabolic changes in serum of patients with acute Deep Vein Thrombosis.</b>  Miss Marina Kafeza</p>		<p><b>09:16 - 09:22</b>  <b>Thoracic endografting experience at a tertiary level vascular unit and major trauma centre</b>  Mr Nikesh Dattani</p> <p><b>09:23 - 09:29</b>  <b>Percutaneous Endovascular Aneurysm Repair can reduce procedure duration and hospital stay</b>  Mr Alan Meldrum</p> <p><b>09:30 - 09:36</b>  <b>EVAR Offers a Survival Advantage to Patients Not Suitable for Open Abdominal Aortic Aneurysm Repair</b>  Mr Owain Fisher</p> <p><b>09:37 - 09:43</b>  <b>CT angiography as a surveillance modality following Endovascular Aneurysm Repair is unnecessary for most patients</b>  Mr Douglas MacKenzie</p> <p><b>09:44 - 09:50</b>  <b>Branched endovascular repair (BEVAR) for thoracoabdominal aneurysms – a single centre midterm experience</b>  Mr David Ormesher</p> <p><b>09:51 - 09:57</b>  <b>A Population-based cohort study examining the risk of Abdominal Malignancy following Endovascular Abdominal Aortic Aneurysm Repair</b>  Mr Viknesh Sounderajah</p>

	Health Economics Research Unit, University of Aberdeen	<p><b>09:44 - 09:50</b> <b>Morbidity of the contralateral limb following major lower limb amputation in patients with peripheral arterial disease and/or diabetes: audit of two regional vascular centres</b> Ms Sara Rahma</p> <p><b>09:51 - 09:57</b> <b>Abdominal Waist Circumference (AWC) as a predictor of mortality and morbidity following peripheral bypass surgery.</b> Miss Penelope P J Sucharitkul</p> <p><b>09:58 - 10:04</b> <b>Survival Following Lower Limb Bypass Surgery in Octogenarians: Experience from a Tertiary Vascular Centre</b> Miss Claire Dawkins</p> <p><b>10:05 - 10:11</b> <b>Selective primary closure after carotid endarterectomy does not increase the rate of stroke or significant restenosis</b> Dr Lucian Lacob</p> <p><b>10:12 - 10:18</b> <b>Factors Influencing Uptake of Supervised Exercise Programmes in Patients with Intermittent Claudication</b> Dr Karen Ka Man Chui</p> <p><b>10:19 - 10:25</b> <b>Contrast-enhanced 3D tomographic ultrasound (tUS) peripheral angiography</b> Mr Steven Rogers</p>	<p><b>09:51 - 09:57</b> <b>Neuromuscular stimulation in chronic venous disease - a randomised clinical trial</b> Mr Tristan Lane</p> <p><b>09:58 - 10:04</b> <b>Is contrast-enhanced ultrasound (CEUS) superior to computedtomography angiography (CTA) in the detection of endoleaks in post-EVAR patients? A Systematic Review and Meta-analysis</b> Mr Amer Harky</p> <p><b>10:05 - 10:11</b> <b>Metabolic Phenotyping of Chronic Venous Disease by Nuclear Magnetic Resonance Spectroscopy</b> Miss Sarah Onida</p> <p><b>10:12 - 10:18</b> <b>Carotid intraplaque haemorrhage is associated with positive micro-embolic signals on transcranial Doppler monitoring</b> Dr Suk Cheng</p>		<p><b>09:58 - 10:04</b> <b>Open Repair of Type IV Thoraco-Abdominal Aneurysm: A 20 Year Experience</b> Miss Rachael Forsythe</p> <p><b>10:05 - 10:11</b> <b>Turndown – The hidden truth behind aneurysm screening</b> Mr Jonathan Nicholls</p> <p><b>10:12 - 10:18</b> <b>A binary treatment paradigm for Abdominal Aortic Aneurysm (AAA) does not reflect clinical reality</b> Miss Kursheed Khan</p> <p><b>10:19 - 10:25</b> <b>Post Endovascular Aneurysm Repair Patient Preferences Study</b> Mr Bilal Azhar</p>
10:30	<b>TEA, COFFEE AND EXHIBITION VIEWING</b>				

	LOMOND (Main Auditorium)	ALSH	BOISDALE	CARRON	DOCHART
11:00	<p><b>VENOUS SESSIONS (2)</b>  <b>11:00-11:15</b>  <b>The evidence base for pelvic vein embolization</b>  David Riding Venous Clinical Research Fellow, The University of Manchester; Member of Trainees Committee, RCSEd</p> <p><b>11:15-11:30</b>  <b>The role of IVUS in pelvic congestion syndrome</b>  Sriram Narayanan, Senior Consultant Vascular Surgeon Harley Street Heart and Vascular Centre, Singapore</p> <p><b>11:30-11:45</b>  <b>Advances in the treatment of acute DVT</b>  Dr. Thulasidasan Narayanan, Consultant Radiologist, St Thomas' Hospital, London</p> <p><b>11:45-12:00</b>  <b>Challenges of venous thromboembolism in pregnancy,</b>  Professor Catherine Nelson-Piercey, Professor of Obstetric Medicine and Consultant Obstetric Physician, Guys &amp; St Thomas Foundation Trust,</p>	<p><b>CAROTID/PVD Abstract Presentations CONTNUED (2)</b></p> <p><b>11:00 - 11:06</b>  <b>Antiplatelet therapy in peripheral arterial disease: an umbrella review and meta-analysis of preventative and treatment outcomes</b>  Mr Graeme K Ambler</p> <p><b>11:07-11:13</b>  <b>The effect of glycaemic variability on outcomes following percutaneous transluminal angioplasty in peripheral arterial disease</b>  Mr Ahmed Elbasty</p> <p><b>11:14 - 11:20</b>  <b>Enhancing Amputation Level Decision Making in Dysvascular Amputees by Predicting Failure of Healing and Need for Reamputation</b>  MD Joseph Czerniecki</p> <p><b>11:21 - 11:27</b>  <b>Medical management of osteomyelitis in diabetic foot: influence of microbiology sampling and targeted therapy</b>  Dr. Babundo Okwechime</p> <p><b>11:28-11:34</b>  <b>Deprivation and Compliance with a Supervised Walking Exercise Programme</b>  Mr Brenig Gwilym</p>	<p><b><u>BOISDALE 1</u></b>  <b>SARS (2)</b>  <b>11:00-11:30</b>  <b>Vascular Research - A Personal and RCS View</b>  Professor Ian Chetter, Professor of Vascular Surgery, University of Hull</p> <p><b>11:30-12:00</b>  <b>Nice Guidance, How It Works and its Impact</b>  Professor Andrew Bradbury  Professor of Vascular Surgery, University of Birmingham</p> <p><b><u>BOISDALE 2</u></b>  <b>11:00-15:00</b>  <b>An Introduction to Vascular Surgery Skills Course in Association with the Rouleaux Club</b></p> <p><i>Numbers for this workshop are limited and pre-registration is required. The workshop is aimed at Medical Students, Foundation and Core doctors who are interested in exploring Vascular Surgery as a potential career. The course consists of short talks about a vascular career and a chance to see and practice some hands on Vascular surgical skills with current trainees, using jigs and simulators. The delegates will rotate around surgical skills stations where they will be taught:</i>  1)Endovascular surgery basics  2)Arterial patch repair and Arteriotomy  3)Embolectomy and Closure</p> <p><b><u>Chair:</u> Iain Roy</b></p> <p><b>11:00-11:05</b>  <b>Welcome</b>  Mr. Ayoola Awopetu</p>	<p><b>11.00-11.30</b>  <b>How to Scan an AVF</b>  Mr. Ved Ramnani, Lead healthcare Scientist, Royal Free London NHS Foundation Trust</p> <p><b>11:30-12:00</b>  <b>Live demonstration and Hands-on Practical Session.</b>  Practical demonstrators and subjects from West Glasgow Ambulatory Care Hospital</p> <p><b><u>Facilitator:</u> Bianca Bond</b></p>	<p><b>AORTA/TRAUMA Abstract Presentations CONTNUED (2)</b></p> <p><b>11:00 - 11:06</b>  <b>Teflon Pledget reinforcement and bidirectional compression as adjunctive techniques for closure of arterial cannulation site following percutaneous EVAR</b>  Miss Mahim Qureshi</p> <p><b>11:07 - 11:13</b>  <b>Determining Stent Graft Migration Configurations in Endovascular Abdominal Aortic Aneurysm Repairs</b>  Mr Ammar Adel Abdullah</p> <p><b>11:14 - 11:20</b>  <b>The Impact of Undiagnosed Airflow Obstruction on Patients Considered for Elective Aortic Aneurysm Repair.</b>  Mr Owain Fisher</p> <p><b>11:21 - 11:27</b>  <b>Endovascular Repair of Juxtarenal and Thoracoabdominal Aortic Aneurysms with Fenestrated/Branched Endografts After Previous Aortic Repair</b>  Mr Maciej T. Juszczak</p> <p><b>11:27 - 11:33</b>  <b>Endovascular Aneurysm Sealing with Chimney Grafts – Outcomes from the First 77 Cases at a Single Institution</b>  Miss Kate Stenson</p>

			<b>11:05-11:15</b> <b>My Life as a Vascular Surgeon</b> Ms. Sophie Renton, Consultant Vascular Surgeon, Northwick Park Hospital  <b>11:15 -12:00</b> <b>PRACTICAL SESSION 1</b>		
<b>12:00</b>	<b>LUNCH</b>				
	<b>PRODUCT SHOWCASE (Exhibition Hall)</b> 12:15-12:30: <b>Medtronic</b> 12:30-12:45: <b>Endologix International B.V</b>				
<b>12:55</b>  <b>13:00</b>	<b>WELCOME – Lord Provost of Glasgow</b>  <b>13:00-15:00</b> <b>PRESIDENT'S SYMPOSIUM</b> <b>Evidence for Excellence.</b> <b>Challenges and Controversies in Vascular Surgery – what is the evidence</b>  <u><b>Chairs:</b></u> Kevin Varty and Ian Loftus  <b>Introduction</b> President Elect, Ian Loftus  <b>President's Address</b> Kevin Varty  <b>13:20-13:40</b> <b>Scoring systems in vascular surgery: useful or dangerous for patients and surgeons</b> Chris Twine, Consultant Vascular Surgeon  <b>13:40-14:00</b> <b>Managing venous disease: what we know now that we didn't know 5 years ago</b> Manj Gohel, Consultant Vascular Surgeon, Addenbrooks Hospital, Cambridge University Hospitals NHS Foundation Trust		<b>13:00-13:10</b> <b>How to get a Vascular NTN?</b> Leanna Erete  <b>13:10-13:15</b> <b>Why join the Rouleaux Club?</b> Olivia McBride  <b>13:15-14:00</b> <b>PRACTICAL SESSION 2</b>  <b>14:00-14:45</b> <b>PRACTICAL SESSION 3</b>  <b>14:45-15:00</b> <b>Discussion and Feedback</b>	<b>13:00-15:00</b> <b>SVT PRACTICAL EXAMINATION ASSESSOR SESSION</b>  <u><b>Chairs:</b></u> Naavala Ngwa-Ndifor, Lynne McRae  <b>13:00- 13:30</b> Susan Halson-Brown, Programme director Medical Ultrasound, King's College London  <b>13:30- 13:45</b> Naavalah Ngwa-Ndifor, Senior Clinical Vascular Scientist, Barts Health NHS, Skills Trainer InHealth, Director Ultrasonic Vascular Imaging Ltd.  <b>13:45-14:15</b> Alison Charig, Head of Vascular Assessment Unit, Portsmouth Hospitals NHS Trust  <b>14:15-15:00</b> Questions/Discussion	

	<p><b>14:00-14:20</b>  <b>Vascular Graft Infection – an evidence free zone requiring a little MAGIC?</b>  Miss Rachel Bell, Consultant Vascular Surgeon, St Thomas' Hospital, London</p> <p><b>14:20-14:40</b>  <b>Acute presentation of mesenteric ischaemia, a practical approach</b>  Mr Wesley Stuart, Consultant Vascular Surgeon, NHS Greater Glasgow and Clyde</p> <p><b>14:40-15:00</b>  <b>'Anticoagulant drugs: from small molecules to biologics'</b>  Trevor Baglin, Consultant Haematologist, Cambridge University Hospitals</p> <p><b>PRESENTATION OF SUCCESSFUL FRCS VASC EXAM CANDIDATES AND THE WINNER OF THE GEOFFERY SLANEY MEDAL</b></p>				
15:00	<b>TEA, COFFEE AND EXHIBITION VIEWING</b>				
15:30	<p><b>15:30-16:00</b>  <b>KINMONTH LECTURE</b>  <b>Connective Tissue Disorders and the Vascular Surgeon: Lessons learned at Hopkins</b>  Mr. James Black, Associate Professor of Surgery, Baltimore, Maryland</p> <p><u>Chairs:</u> Kevin Varty, Mark McCarthy</p>		<p><b>BOISDALE 1</b>  <b>17:00-18:00</b>  <b>ROULEAUX CLUB AGM</b></p> <p><u>Chairs:</u> Iain Roy and Olivia McBride</p>	<p><b>15:30-17:00</b>  <b>Combined Vascular Society Sessions – Please note the below sessions are in the LOMOND (MAIN AUDITORIUM)</b></p> <p><b>15:30 – 16:00</b>  <b>Kinmonth Lecture Connective Tissue Disorders and the Vascular Surgeon: Lessons learned at Hopkins</b>  Mr. James Black, Associate Professor of Surgery, Baltimore, Maryland</p>	

				16:00-17:00 Ultimate MDT Chairs: John Brennan, Keith Jones, Andy Winterbottom, Nikki Fenwick, Dominic Foy	
	16:00-17:00 <b>The Ultimate MDT</b> Chairs: John Brennan, Keith Jones, Andy Winterbottom, Nikki Fenwick, Dominic Foy			17:00 -18:00 <b>Heads of Service Meeting</b>	
	17:00-18:00 <b>Vascular Society AGM</b>				
17:00 - 19:30	<b>WELCOME RECEPTION – EXHIBITION HALL</b> <b>SPONSORED BY LORD PROVOST OF GLASGOW, GLASGOW CITY COUNCIL</b> <i>A welcome reception will be held in the exhibition hall within the conference venue; SEC and will be hosted by a Glasgow City council representative of the Lord Provost of Glasgow. The event welcomes delegates to the Annual Scientific Meeting 2018 and offers the opportunity to network over a glass of wine and canapes. Admission is free and booking is not required.</i>				

# THURSDAY 29 NOVEMBER

## 07:30 DELEGATE REGISTRATION WITH TEA, COFFEE AND EXHIBITION VIEWING

	LOMOND (Main Auditorium)	ALSH	BOISDALE	CARRON	DOCHART
08:00 - 09:30	<p><b>AORTIC SESSION</b> Sponsored by WL Gore ®</p> <p><b>Chairs:</b> Mike Jenkins, Rob Fisher, Marcus Brooks</p> <p><b>08:00-08:12</b> Real-world implications of 15 year EVAR results – has NICE got it right? Mark Tyrrell, Consultant Vascular Surgeon, Guy's and St Thomas' Hospitals</p> <p><b>08:12-08:24</b> Will adjunctive techniques for the proximal aortic neck fixation improve durability or is it more money after bad? Paul Hayes</p> <p><b>08:24-08:36</b> What work up is necessary to select those "fit" for open aortic surgery?
