

Study days at Health and Applied Sciences

Ultrasound guided Paracentesis

You are invited to attend a series of lectures and practical hands on demonstrations in how to use diagnostic ultrasound to scan and guide ascitic drainage.

Delivered by UWE lecturers and experienced sonographers. This workshop is aimed at practitioners wishing to learn ultrasound guidance for paracentesis and will cover the basics of ultrasound physics, equipment and scanning technique.

Participants will learn how to use ultrasound to guide insertion of needles and drains in order to minimize the risks of the procedure.

Previous experience of ultrasound scanning is desirable but not essential.

Lunch, refreshments, CPD certificate and delegate packs are included.

Date

Wednesday 6 October 2021
9:15 – 16:00
