Benefits to your practice:	<p>Attending a programme that includes a mixture of papers, symposia and invited lectures enables me to keep up to date with developments and innovation in vascular ultrasound.</p> <p>The information on pensions, professional issues and indemnity was of particular interest. I decided to obtain professional indemnity as a benefit to my personal practice.</p> <p>Following a paper presented by Tracey Gall on image review audit we have introduced a peer review audit where 10% of all our scans are randomly selected from the radiology information system (RIS) and the images and reports are reviewed by a peer.</p>
Benefits to service user:	<p>Peer review creates a better awareness of quality of images and reports. It provides a forum for discussion which is of great benefit to the team as a whole as any discrepancies are noted and discussed.</p> <p>This leads to better quality scans for our patients.</p>
