

Hannah Lines has completed this personal reflection on **06/08/2018**

Paper: Summer 2018 CPD question

Personal Reflection:

Description of the learning

Reading and analysis of journal articles

Evaluation

2 interesting papers looking at mesenteric circulation and collateralisation pathways and treatment of disease

Analysis

Good revision and update of anatomy, pathophysiology and treatment options for mesenteric ischemia.

Conclusion

Interesting paper with updates regarding flow velocities and collateralisation and treatments

Action Plan

Continue to review up-to-date practice
