

Upper limb study day workshop 02/03/2023

Dear All,

I have secured another speaker, Mr Arun Pherwani to speak at the study day on TOS.

Matthew Bartlett wanted to speak in the morning session as he is needed elsewhere on Thursday afternoon so that is why I've started the day off with arterial TOS scanning.

Danny Rimmer will speak on assessment of vTOS.

Ben - you mentioned one of your team should be willing to speak about upper limb DVT assessment. Ideally they would be happy to demonstrate/teach delegates how to scan upper limb DVT also. If you have one happy to present and one who wants to do demonstrator role even better.

I currently have the following faculty:

Emma Waldegrave

Tanyah Ewen

Kamran Modaresi

Hannah Lines

Amy Bolsworth

Matthew Bartlett - speaker and demonstrator (morning only)

Danny Rimmer - speaker also

Mr Arun Pherwani - Consultant - speaker
