Subject: FW: FW: Invitation to demonstrate at Charing Cross symposium: New CX2016 Vascular Access course - skills day - 28 April 2016

Hi Dom

I have been having problems getting CPD points for my attendance at the Charing Cross meeting in April.
Would you mind just sending me an email confirming I attended for two days and helped with demonstrations on one of the days, and I can then forward it on to the SVT.
I will make sure I get something in writing from the meeting next year assuming they do certificates of attendance for vascular scientists. I think because we got free attendance we didn't get all the paperwork and bag that would presumably have contained that.

Best wishes

Kate

Hi Kate,

The SVT are trying to formalise certificates of attendance, i believe they sent out an email last week?
My advice would be to get a letter from a colleague confirming your attendance, and I would imagine this would stand as better evidence should you be audited in the future. Would Christiane be willing to write a confirmation of attendance?

Many thanks,

Heather

Hi Heather

Just looking through emails but have none after the charing cross meeting. Do have this one below with an email train showing I was invited, and obviously I have the delegate badge plus I have another email I can forward showing we were given 4 day access to the meeting, although I only went for 2.5 days.
Not sure what else I can send you. I could ask the vascular surgeon I was demonstrating with to confirm I was there.
It would be very annoying if I can't claim the CPD points given I was there and also demonstrating, although I don't think I get more points for that.
