Paper: Autumn 2017 CPD Questions

Personal Reflection:

Description of the learning, Evaluation, Analysis, Conclusion and Action Plan: Reading 2 papers on EVAR surveillance and completing Newsletter questions. The first paper refreshed my knowledge of EVAR scanning and was in line with what my experience has been with EVAR surveillance. The second paper was educational in that I have little experience in contrast imaging and non with 3D ultrasound. The results of the second study appear promising and may be an interesting future development for implementation of EVAR surveillance in the lab setting in future.
