Paper: Spring 2018 CPD Questions

Personal Reflection:

Description of the learning

Based on two research papers based on vascular thoracic outlet syndrome. This involved reading the papers then answering questions on the papers.

Evaluation/Analysis/Conclusion

Hopefully I have passed with >80%. I enjoyed reading both papers and found them informative to increase my knowledge. This will benefit me when scanning these patients in the future.

Action plan - To re0read these papers and keep them in the vascular room so I can re-ref to them if needed.
