

**Ria Sharpe** has completed this personal reflection on **03/08/2019**

**Paper:** Summer 2019 CPD Questions

**Personal Reflection:**

I found both papers interesting to read. Firstly the Tibial Velocities and PAD paper was good as there was good analysis between the two patient groups and gave information about both patient groups.

Secondly the Popliteal artery branching patterns was very interesting to read and learn about the different classification types and that relates to popliteal aneurysms and disease.
