

Victoria Bautista has completed this personal reflection on **26/08/2024**

Paper: Autumn 2023 CPD Questions

Personal Reflection:

Non-Vascular Considerations When Interpreting Extremity Arterial and Venous Examinations

Lymph nodes

Soft tissue oedema

Soft tissue fluid collections (abscess, haematoma, seroma)

Musculotendinous injuries

Soft tissue masses

Joint and Bursal Pathologies

Popliteal Cyst (Baker,Ãs Cyst)

Joint Effusions

Bursal Fluid

Pseudotumor

Detecting and understanding the above pathologies is helpful n obtaining a full picture of the patient's issues. I will attempt to implement this into my practise.

Agreement of clinical tests for the diagnosis of peripheral arterial disease

Understanding the clinical tests and their ability to detect disease can be helpful in a clinical setting.
