Dear All,

Since our last DWVN meeting in April we held an evening meeting on 26<sup>th</sup> June aimed principally at nursing staff though it was also attended by radiographers, physiotherapists and OTs.

The meeting was based around skin care and the journey of a patient with peripheral arterial disease from outpatients through investigations, angioplasty, surgery, post op care and rehabilitation. Attendance was well over 40 and feedback was good so a second meeting is on the cards.
