Subject: Tuesday workshop

Dear All,

Many thanks for agreeing to help with the ultrasound workshop next Tuesday. I have arranged all the manufactures to arrive for 10am so we can set up the beds/scanners etc. Fran has already purchased the PPE and gel. Notepads and pens from Mindray should arrive on Monday at the venue.

To help with set up can I ask who is intending on arriving around 10am (I already know about Klaus)? The session formally starts at 11am but I would appreciate some help setting up the scanners.

We should have 3 patients attending (one I am less confident about) and two phantoms from Medtronic also.

KR,
Steve.

Kind Regards,
Dr Steven Rogers, BSc (Hons), PgCert, AVS, PhD.
