Please comment on the applicant's ability to write clear reports and relay urgent findings appropriately:

Ms Walcott-Dhainy. Showed excellent skills in interpreting, and clearly reporting both arterial and venous duplex scans to different vascular subspecialties. Also showed great enthusiasm in doing complex scans and addressing particular questions which were of great importance in decision making; such as complex pedal arches scans for complex ultra-distal bypasses.

Please include any other comments you may have (please continue on the reverse of the page if required).

Worked excellently in a multidisciplinary team, and was didn't hesitate to help whenever asked.
