LEFT LOWER LIMB COLOUR DUPLEX VENOUS ASSESSMENT

Left Leg;
LSV,SSV and deep veins are patent and competent.

An incompetent varicose vein (dia= 2.8mm to 3.0mm) arises as posterior thigh vein from upper thigh, swings backward and laterally, gives a branch which re-join LSV at knee. Varicose vein at back of lateral knee swings around and join LSV at distal calf.

Scan performed and reported by: Ikhtlaq Rana
