VENOUS LEG DUPLEX REPORT : 25/04/2023

TO :

RE :

Tested By : MR JASON MAPANO

Test Date : 25/04/2023

Requested Date : 25/04/2023

	Right	Left
Indication : Ulcer		Ulcer
SFJ : Competent		Competent
LSV : Incompetent		Competent
ALTB : Competent		Competent
SPJ : Competent		Competent
SSV : Competent		Competent
CFV : Competent		Competent
SFV : Competent		Competent
POP : Competent		Competent
Perforator : Competent		Competent

Comments : Bilateral healed ulcers.

Right venous duplex scan LE

The GSV in the mid thigh segment is incompetent with a tributary that pierce-out and spreads-out toward the knee area which is tortuous and incompetent.

The rest of the segment of the GSV is competent with diameter of >3mm.

The rest of the deep and superficial venous segments are patent and competent.

Left venous duplex scan LE

All deep and superficial venous segments are patent and competent.

Note:

The right GSV is suitable for EVLT if clinically warranted.
