PERIPHERAL ARTERIAL DUPLEX REPORT : 30/06/2023

TO :

RE :

Tested By : MR JASON MAPANO
Test Date : 30/06/2023
Requested Date : 29/06/2023
Indication : Post PTA

**PSV1 max
(cm/sec)**

Common Femoral R : 147
Super Femoral R : 119
Popliteal R : 85
Crural R : 51

Comments : Recent right SFA plasty - no pop pulse and suggests symptoms worse once more.

Right arterial duplex scan LE

The CFA, SFA, POP, posterior tibial, peroneal, anterior tibial and dorsalis pedis arteries are patent (mild to moderate plaque) with normal peak systolic velocities and triphasic waveform.
