**PERIPHERAL ARTERIAL DUPLEX REPORT : 03/07/2023**

TO :

RE :

Tested By : MR JASON MAPANO  
Test Date : 03/07/2023  
Requested Date : 03/07/2023

PSV1 max  
(cm/sec)

Indication : IC

Common Femoral L : 79  
Popliteal L : 25  
Crural L : 21

Comments : Left leg pain and non-healing wound on the left 1<sup>st</sup> toe.

Right ABI: 140/160: 0.87 (borderline).

Left ABI: 70/160: 0.43 (reduced).

Left arterial duplex scan LE

Total occlusion of the proximal to distal SFA.

Reconstitution of flow in the above knee POP with low PSV and monophasic waveform until the trifurcation vessels.

CFA and PFA are patent with normal PSV and triphasic waveform.

Note:

The left GSV from the groin to BK segment is patent and linear with >3 mm in diameter suitable for conduit.
