## Notes

## BILATERAL LOWER LIMB ARTERIAL PRESSURES &amp; WAVEFORMS ASSESSMENT

\*Challenging assessment due to patient bodily habitus\*

\*Unable to fully assess the calf vessels due to bandaging for infected ulcers\*

## RIGHT:

Good triphasic and mono/triphasic waveforms in the right common femoral, popliteal and posterior tibial arteries.

Assessed by Ranit Shail, MCVS

Printed on 25/07/2024 at 9:44 am
